[^0]Internal Use Only - Not for Public Distribution

[^0]:    ${ }^{\top}$ Data for Colleges/Departments with fewer than five student respondents have been redacted to protect student confidentiality. For the purposes of this report, students with majors from different departments than their first major are included in BOTH departments. For example: a student majoring in Political science and History would appear twice in the data, whereas a student majoring in Greek and Classics would only appear once.
    ${ }^{2}$ This report represents only students who indicated that their primary plan after graduation was post-college education.
    ${ }^{3}$ Offered admission includes students who have received at least one admission offer as well as students who have accepted admittance.
