• Assumptions about Implementation

• Eight-Step Implementation Model
Assumptions about Implementation

• Correcting a problem takes longer than the time invested in planning that might have prevented the problem

• Some planning is better than no planning at all

• Implementation is an ongoing process that can improve over time
Eight-Step Implementation Model
Intended Outcomes of Using the Model

• Help staff to make best use of the limited time that is available for evaluation and planning

• Help staff to better anticipate, and then potentially avoid, typical problems in changing career resources, service delivery tools, and services
