Revised with the help of Andrew R. Morrison, Jacob A. Galles, Brittany R. Melvin, Jane Tyler Finklea, Mary Buzzetta, Vanessa F. Freeman, Adam K. Miller, Ryan Sides, David H. Murphy, Carley Peace, and Ivey E Burbrink.

Center for the Study of Technology in Counseling and Career Development (https://career.fsu.edu/Tech-Center), a Florida State University research center funded by the Career Center in the Division of Student Affairs and the Department of Educational Psychology and Learning Systems in the College of Education

The Career Center
100 South Woodward Avenue
Florida State University
Tallahassee, Florida 32306-4162

This bibliography contains citations from publications or papers presented at professional meetings concerning CIP theory, research, and practice based on work completed at Florida State University and other organizations in various locations. The organization of the bibliography is shown in the table of contents on the following page.

* A Bibliography of CIP Theory, Research, and Practice is published by the Florida State University Libraries under a Creative Commons Attribution-No Derivatives 4.0 license, allowing any reader to copy and distribute this publication content without permission of the authors or the Florida State University Libraries, provided that the authors of the content are given proper attribution and that the content is not modified in any way.
Table of Contents

Clicking on topics in the Table of Contents below will link to related headings in the document. Clicking on headings in the document will link back to this Table of Contents.

Overview of CIP Theory, Research, and Practice
Provides an introduction of key elements of CIP theory, research, and practice.

General Principles
Provides general statements of CIP theory as well as explanations of specific elements or models used in the theory.

Foundations of CIP Theory
Provides citations for concepts and research that created a basis for initial aspects of CIP theory.

CIP Theory and Research in Vocational Behavior
Provides citations of empirical research studies, using both quantitative and qualitative methodology, that further clarifies relationships among constructs in vocational behavior. Examples of variables include negative career thoughts, career decision space, career decision state, RIASEC secondary constructs, vocational identity, and demographic variables. A link to a summary of Career Thoughts Inventory research is available here.

CIP Theory and Evidence-Based Practice
Provides citations of empirical research studies, using both quantitative and qualitative methodology, that examines the efficacy of CIP theory-based career interventions. Examples of career interventions include career courses, drop-in brief career services, and self-help services. A link to a summary of evidence-based CIP practice research is available here.

CIP Applications
Provides citations for applications of CIP theory in practice in various educational, agency, and organizational settings.

CIP-based Assessments
Provides citations for the development and use of CIP-based assessments, with subsections for the Career Thoughts Inventory, the Career State Inventory, Card Sorts, the Decision Space Worksheet, and the CASVE Cycle Questionnaire.

Resources for Client Use
Provides citations for CIP-based instructional resources and exercises.

Reviews of CIP Theory
Provides citations for reviews of CIP theory.

Reviews of CIP-based Assessments
Provides citations for reviews of CIP assessments.
