

GRADUATING SENIORS

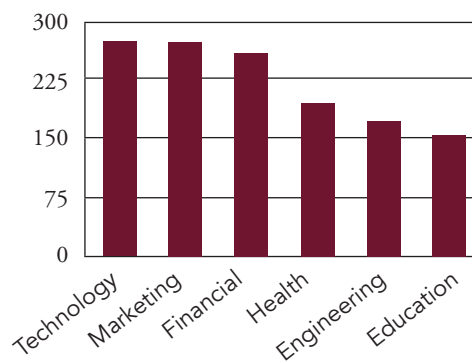

The Career Center, in conjunction with the Office of Institutional Research, has administered a survey to graduating seniors since 2003, asking students about their post-college plans and overall FSU experience. Beginning in fall 2012 in collaboration with Academic Affairs, the survey was added as a graduation requirement. Information about post-graduate plans was collected from **over 95% of graduating seniors** from summer 2020, fall 2020, and spring 2021. This includes a 92% response rate on an initial survey, a six-month follow-up survey, and additional knowledge collected via strategic LinkedIn searches and the National Student Clearinghouse.

Employment

Data indicate that more than three-fourths of FSU graduates seeking employment have at least one job offer within three months following graduation and are offered employment in a wide variety of industries.

Summer 2020	63%	81%
