

FSU | CAREER CENTER

Dear FAMU-FSU College of Engineering STEM Career and Internship Fair Recruiter,

I would like to take this opportunity to thank you for participating in the FAMU-FSU STEM Career and Internship Fair. We are incredibly grateful for your partnership and want to express how much we appreciate your attendance at this event.

We encourage you to engage in our on-campus interviewing program and to post internship, part-, and full-time jobs through our dedicated NoleNetwork platform. We are committed to maintaining a high-performing set of services to support your recruiting efforts. I believe you will agree that the FAMU-FSU College of Engineering STEM Career and Internship Fair represents one of the leading university career events of its kind and that our students are some of the brightest in the country.

In addition to our presence within the FAMU-FSU College of Engineering, the Career Center is found within the Dunlap Success Center where career advising, experiential learning programs, mock interviews, on-campus interviewing, and other employability programs are offered for all FSU students. We have hosted hundreds of employers and colleagues from external career centers who describe our on-campus interview facility to be among the very best in the country. There are opportunities for corporate donors to support our efforts through naming and sponsorship opportunities throughout our facility. Specific information regarding **corporate sponsorship and naming of Career Center rooms/areas** in the Dunlap Success Center is provided in the Employer Handbook online at career.fsu.edu/employers. There are additional opportunities to leave a lasting impression on FSU's campus by becoming a **Styled for Success Donor** which directly supports the Professional Clothing Closet. Inclusion on our donor wall begins at \$500.

We continue to offer an annual FSU Career Center Partner program – a distinguished group of companies and organizations that directly support student career development and employment programs by actively participating in recruitment activities. Employer Partners receive access to a rich array of benefits including waived Career Center fair registration, enhanced campus branding, and membership in the Employer-in-Residence Program. More information about the Employer Partner program, Styled for Success Donors, and naming opportunities can be shared with you by contacting Christy Mantzanas, Program Director for Employer Relations. She can be reached directly at cmantzanas@fsu.edu.

I would like to specifically thank Abbey Hale for her outstanding work in coordinating this event. Abbey and her colleagues in the Employer Relations section work diligently to ensure strong student attendance and readiness and to maximize employer engagement and success. On behalf of the Career Center, the Division of Student Affairs, and Florida State University, thank you for participating in this year's STEM Career and Internship Fair.

In partnership,

Rob Liddell, Ph.D.

Rob Liddell, Ph.D.
Assistant Vice President, Career Services
