

Thank you and your organization for recruiting the best and the brightest from Florida State University. We appreciate your continued support of the FSU Career Center and invite you to become a member of our Career Center Partner program.

The Partner program allows corporations to increase their level of participation, build their brand, and establish a high-profile recruiting presence across campus. Joining the Partner Program places your organization in a distinguished group of companies who directly support student career development and employment programs at Florida State University and who actively participate in the Career Center's recruitment activities.

The FSU Career Center's Partner program offers two levels of giving, Gold and Garnet, each designed to provide you with outstanding options to promote your organization and employment opportunities to students at FSU – a complete benefit list is attached. An example of one of the unique benefit options of our Gold and Garnet Placement Partner program is the flexibility to select and attend the career events most beneficial to your organizations' recruiting needs.

#### Gold Career Center Partner

\$5,000
