Vote

- **Population or setting-specific meta-analyses**
- **General meta-analyses**

Population-specific meta-analyses

- **Ethnic and racial minorities**
- **Gender**
- **Diagnoses**

Setting-specific meta-analyses

- **Career development centers**

General meta-analyses

- **Moderator analyses**

Return to question of general versus specific

- Depends on the research question and the quality/quantity of the research

Conclusion

- **We need more research that addresses what interventions work with which clients, under what circumstance.**
